TOTAL FOR DEGREE 120

The official degree requirements for the PPE major are available [here](#) and updated annually.

PPE MAJOR FOCUS AREAS

Choose one Focus Area by taking at least five courses that fall under the area (further requirements apply).

FOCUS AREA [1]	Moral, Political, Legal, and Economic Thought.
FOCUS AREA [2]	Global Political Economy.
FOCUS AREA [3]	Social Justice, Policy, and Governance.
FOCUS AREA [4]	Data, Decisions, and Behavior.
FOCUS AREA [5]	Social, Political, and Economic Entrepreneurship.

PPE EXPERIENTIAL LEARNING OPPORTUNITIES

Below is a list of courses and opportunities that can be paired with **PPE's Bridge Experience** zero-credit course **PPE 3900**.

PPE 4964: Internship.

The Kellogg Center offers students the possibility to receive three credit hours for internships, field studies, and practicums in the context of their PPE major. This experiential learning opportunity is open to students who have secured an internship with high PPE relevance, have completed PPE 2894, are in good academic standing, and have an in-major and overall GPA of 2.5 or better.

PPE 4964: PPE Journal.

The Kellogg Center offers an experiential learning opportunity in the context of its international undergraduate research journal, *The Philosophy, Politics, and Economics Review* (PPER). The internship allows the journal's editor-in-chief to work closely with PPE Core Faculty, student editors, authors, and reviewers in preparation of the publication of a new volume of the PPER.

PPE 4884: PPE Capstone Course.

The PPE Capstone Course allows PPE majors to work on an advanced research project of their choice at the intersection of philosophy, politics, and economics and its application to the real world. If connected with a specific career goal, the research project conducted in the context of the PPE Capstone Course can count as a bridge learning experience.

PPE Study Abroad in Düsseldorf.

PPE has established an international partnership with the PPE Program at the Heinrich Heine University Düsseldorf in Germany. The partnership allows selected PPE majors to spend a semester abroad. Courses taken in the context of the study abroad will contribute to students' PPE major requirements and, if connected with career exploration, can count as a bridge learning experience.

Washington Semester in Global Engagement.

The Kellogg Center participates in the Washington Semester in Global Engagement. This experiential learning program allows Virginia Tech students to spend a semester in Washington, D.C., while earning fifteen credit hours for their degrees and taking a semester-long internship.
